

FRUBO Product Description

Fine Art Canvas 520 μ

This heavy-weight canvas material has a matt-coated, textured surface. Its robust texture provides easy handling when mounting on stretcher frames, allowing it to create highly authentic reproduction paintings, artistic portraits in exhibition quality and outstanding art prints with impressive depth. When used with pigmented inks, this paper ensures extremely high image stability.

Benefits:

- Heavy-weight canvas material
- Robust texture
- Very high image stability in combination with pigmented inks
- Eminently suitable for framing

Best for:

- Outstanding Fine Art prints
- Reproductions with a high authenticity
- Artistic portraits in exhibition quality
