

# FRUBO Product Description

## Fine Art Gallery Board 480 $\mu$

The surface of this heavy-weight, smoothly structured Fine Art paper is ideal for demanding, artistic B/W and sepia photos and out-of-the-ordinary portraits, such as act photos. Its very good image stability in combination with pigmented inks contributes to the outstanding rating and sustainability of this paper and it creates a professional and high-quality impression to the viewer.

### Benefits:

- Heavy-weight and finely structured
- Acid-free and therefore extremely age resistant
- Very high image stability in combination with pigmented inks

### Best for:

- Artistic B/W & sepia photos
- Extraordinary portraits (e.g. act photos)
- Digital Fine Art reproductions

### Archival Consistency:

This paper is standard size, has a neutral PH value and is 100% acid free. Therefore, it is highly age resistant. It offers the highest archival results and has a life-time of over 100 years.
