

FRUBO Product Description

Fine Art Handmade Style 310 μ

This classical, natural white, imitation hand-made paper stands out due to its high resistance to light and the unique feel of its structured surface. It is ideal for digital fine art reproductions and for creating high-quality menus, certificates or invitations for special occasions, i.e. weddings.

Benefits:

- Very high light-resistance
- Acid-free and therefore extremely age resistant
- Extremely high image stability in combination with pigmented inks

Best for:

- Digital Fine Art reproductions such as watercolours, pastels, drawings and etc.
- High-class menu printing
- Certificates
- Special invitations

Archival Consistency:

This paper is standard size, has a neutral PH value and is 100% acid free. Therefore, it is highly age resistant. It offers the highest archival results and has a life-time of over 100 years.
